

## Car Wash N Wax

A high performance car washing concentrate. One part Car Wash & Wax can be diluted with 10 parts of water to create a high performance detergent concentrate which can then be diluted further for vehicle washing.

### Directions

**Concentrate Mixing Procedure:** Take 1 part of Car Wash N Wax and add 10 parts of water. A high-pressure water fill will help to mix the product.

**Hand Washing:** Use 4 ounces of concentrate per gallon of water.

**Foam Shower:** Mix 200 parts water to 1 part concentrate, then introduce to system. Recommended dilutions may vary according to local water conditions.

### Application

- Used in Hand Washing
- Used in Self-Serve
- Used in In-Bay-Automatics

### Technical Data

Appearance: Almost colorless liquid

Odor: Mild

pH: 8-10

Biodegradable: 100%

Stability: Good
