

Thickened S-B Tire Shine

Thickened S-B Tire Shine is a high performance thick solvent based silicone tire dressing designed so it can be sprayed by automatic tire shine machines or applied by hand. It produces a brilliant, long lasting satin shine.

Directions

Specially formulated to be applied with mechanical tire shine applicators. Protects against ozone and ultraviolet deterioration. Pleasant odor, non-toxic, non-flammable and non-corrosive. Do NOT use on floors or fabrics.
VOC Content: This material is formulated to meet the Pennsylvania (OTC) regulations for tire shines.

Application

- Used in tunnels and in bay applications
