

## Underbody Rust Inhibitor

Underbody Rust Inhibitor is a unique amine based corrosion inhibitor that will cling to the under body of vehicles and inhibit corrosion caused by deicing salt.

### Directions

Dilute the Rust Inhibitor concentrate with water in the volume ratio of 10 to 20 parts water to one part of the product.

### Application

- Spray apply to the underbody of vehicles during washing operations.

### Technical Data

Appearance: Dark Brown clear liquid  
 Odor: Alcohol  
 Biodegradable: Yes  
 Foaming: Low  
 pH: 4.0 – 6.0  
 Stability: Good

### Storage Instructions

Wear all appropriate Personal Protective Equipment (PPE). Wear respiratory protection or ensure adequate ventilation at all times as vapors can accumulate in confined or poorly ventilated areas. Use the product in a manner, which minimizes splashes and/or the creation of dust. Keep containers closed when not in use. Do not handle or store material near heat, sparks, open flames or other sources of ignition. Store at room temperatures, i.e., 40 to 95°F (4 to 35°C). Store in a cool location. Provide ventilation for receptacles. Avoid storage near extreme heat, ignition sources or open flame. Store away from foodstuffs. Store away from oxidizing agents. Do not store together with acids. Store in cool, dry conditions in well-sealed receptacles. Keep container tightly sealed. Product may become unstable if cooled below 40°F. Keep product warm and above bare concrete floors. If product becomes unstable, add hot water and mix well. Product may be used if thawed properly

### Product Code

CW178

### Safety

**Hazard statements:** Combustible liquid. Causes severe skin burns and eye damage. Causes serious eye damage.

**Signal Word:** DANGER

**Precautionary statements:** Keep away from heat/sparks/open flames/hot surfaces – No smoking. Keep cool. Do not breathe dust/fume/gas/mist/vapours/spray. Wash hands and exposed skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection. Immediately call a POISON CENTER or doctor/physician. Specific treatment (see First Aid or consult the SDS). Wash contaminated clothing before reuse. **IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting. **IF ON SKIN (or hair):** Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. **IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. **IF IN EYES:** Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. In case of fire: Use CO<sub>2</sub>, water, dry chemical and foam for extinction. Store locked up. Store in well-ventilated place. Keep cool. Dispose of contents/container in accordance with local/regional/national/ regulations.
