

Powder Booster Liquid Concentrate

Powder Booster Liquid Concentrate is an additive booster for alkaline or acid based soaps. It is formulated to add extra cleaning and degreasing abilities to powder or liquid soaps.

Directions

Mix 50 pounds (1 box) of Powder-C with 50 gallons of water. Product will dissolve faster in warm or hot water. Mix well until completely dissolved. Add 1 gallon Powder Booster Liquid Concentrate and mix well. Depending on application, dilution range is 8 to 100:1 with water after addition. Powder Booster can also be added 1 gallon per 55 gallons of other acid and alkaline Shore products to enhance cleaning and foam appearance.

Dilution

After the product is added into powder/liquid soaps:
 Tunnel: 8 to 100 Parts Water to 1 Part Product
 In Bay: 8 to 100 Parts Water to 1 Part Product
 Self-serve: 8 to 100 Parts Water to 1 Part Product

Application

- Used in tunnels, bays and self-serve applications

Technical Data

Appearance: Green clear liquid
 Odor: Mild Pine
 Biodegradable: Yes
 Foaming: High
 pH: 9.0
 Rinsing: Complete
 Stability: Good

Storage Instructions

Use only in well-ventilated areas. Prevent formation of aerosols. Store in cool, dry place. Provide ventilation for receptacles. Store away from foodstuffs. Keep container tightly sealed. Product may become unstable if cooled below 40°F. Keep product warm and above bare concrete floors. If product becomes unstable, add hot water and mix well. Product may be used if thawed properly.

Product Code

CW204
