

Cherry Cool Down Double Cherry

Cherry Cool Down is a preparation agent formulated to get a vehicle ready for a more aggressive treatment by cooling down the surface of the vehicle with a great cherry scent.

Dilution

Pre-prepare for cooling down the surface of the vehicle. Dilution rates range from 500 to 1000:1 with water depending on application or consult your representative for specific dilution instructions.

Application

- Used in tunnels

Technical Data

Appearance: Red Liquid
 Odor: Cherry
 Biodegradable: Yes
 Foaming: Low
 pH: 6.0
 Rinsing: Complete
 Stability: Good
 Wetting Ability: Excellent

Storage Instructions

Wear all appropriate Personal Protective Equipment (PPE). Wear respiratory protection or ensure adequate ventilation at all times as vapors can accumulate in confined or poorly ventilated areas. Avoid aerosolizing product. Use the product in a manner which minimizes splashes and/or the creation of dust. Keep containers closed when not in use. Store at room temperatures, i.e., 40 to 95 F (4 to 35 C). Requirements to be met by storerooms and receptacles: Store in a cool location. Provide ventilation for receptacles. Store away from foodstuffs. Do not store together with acids. Store in cool, dry conditions in well sealed receptacles. Keep container tightly sealed. Product may become unstable if cooled below 40°F. Keep product warm and above bare concrete floors. If product becomes unstable, add hot water and mix well. Product can be used if thawed properly.

Product Code

CW778
